SAFETY AND DRIVER ASSISTANCE

HOW TO BE SAFER?

6 airbags. 2 frontal, 2 side-impact, and 2 head-curtain airbags.

Seat belt warning in all positions. It lets you know if one of the passengers hasn't fastened his/her seat belt.

Hill start assist. Maintains the brake pressure for you even when you release the pedal brake.

Manual speed limiter. With this function, the driver can set the car's maximum speed. The car will alert the driver before exceeding it.

Electric door locks. Speed-sensing and child-safety locks on the rear doors.

Rear parking sensors. These sensors will provide distance alerts upon detecting certain objects in close proximity behind the vehicle, avoiding collisions.

ISOFIX and TETHER hatch system. Secure your child-safety seats to the rear seat.

You'll be fully protected in the event of an accident. The car's structure features an additional **front reinforcing bar**, offering maximum security.

Anti-theft warning and immobilizer. It emits an audible alert if someone tries to enter the vehicle without a key. The immobilizer prevents the vehicle from starting when an incompatible key is used.

Rear view camera. It allows you to see what's behind your Chevrolet Onix®.

3-point seat belts in all seating positions. Travel safe always, with no exceptions.

StabiliTrak® Electronic Stability Control. It stops every wheel individually in dangerous situations to stop the car from slipping out of control.

ABS, EBD and BA braking system. Front disc brakes and rear drum brakes with ABS on all 4 wheels, which prevents the wheels from jamming in emergency stops.
